Governing Board

Caspian-Gaastra Fire Authority
P.O. Box 530

Caspian, Michigan 49915

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Caspian-Gaastra Fire Authority**, as of and for the year ended June 30, 2006, which collectively comprise the Authority's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Governing Board, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The financial statements do not include financial data for the Board's legally separate component unit. Accounting principles generally accepted in the United State of America require that the financial data for this component unit to be reported with the financial data of the Board's primary government unless the Board also issues financial statements for the financial reporting entity that include the financial data for its component units. The Board has not issued such reporting entity financial statements.

In our opinion, because of omission of the discretely presented component unit as described above, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the aggregate discretely presented component unit of the **Caspian-Gaastra Fire Authority** as of June 30, 2006, or the changes in financial position thereof for the year then ended.

In addition, in our opinion, except for the effects of omitting the component unit as discussed above, the financial statements referred to above present fairly, in all material respects, the financial position of the aggregate remaining fund information of the **Caspian-Gaastra Fire Authority**, Caspian, Michigan, as of June 30, 2006, and the changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Further, in our opinion, the financial statements referred to above present fairly, in all material respect, the respective financial position of the governmental activities and each major fund of the **Caspian-Gaastra Fire Authority**, Caspian, Michigan, as of June 30, 2006, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 07, 2006 on our consideration of the **Caspian-Gaastra Fire Authority**'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with the report in considering the results of our audit.

The management's discussion and analysis on pages 7 through 14 and the budgetary comparison information are not required parts of the basic financial statements but are supplemental information required by the *Governmental Accounting Standards Board* and by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of the inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the **Caspian-Gaastra Fire Authority**'s basic financial statements. The individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The individual fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the **Caspian-Gaastra Fire Authority** provides this narrative overview and analysis of the financial activities of the **Caspian-Gaastra Fire Authority** for the fiscal year ended June 30, 2006. As readers, you are encouraged to read this discussion and analysis in conjunction with the Authority's financial statement information included in this report.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The financial section of this report includes management's discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the Authority's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Fire Authority is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Fund Financial Statements

The Fire Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. In the basic financial statements, the emphasis of the fund financial statements is on major funds. All of the funds of the Fire Authority are governmental funds.

Governmental Funds

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spend-able resources, as well as balances of spend-able resources available at the end of the fiscal year. This information may be useful in evaluating the Authority's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. In order to provide the reader with information to better understand the long-term impact of the government's near-term financing decisions, a reconciliation between the government-wide financial statements and the fund financial statements is included as part of the basic financial statements.

The Fire Authority maintains two governmental funds. Information is presented separately in the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and debt service fund, both of which are considered major funds.

The Fire Authority adopts an annual budget for its general fund. To demonstrate compliance with this budget, a budgetary comparison statement has been provided for the general fund, and is included in the "Required Supplementary Information" section of this document.

Notes to the Financial Statements

Notes to the financial statements are included in the basic financial statements, and provide additional information that is essential for a full understanding of the data provided in the government-wide and the fund financial statements.

Supplementary Information

<u>Required supplementary information</u> follows the basic financial statements, and includes budgetary comparison schedules for the General Fund as presented in the governmental fund financial statements.

Government-wide Financial Analysis

In time, net assets of a governmental entity may serve as a useful indicator of the government's financial position. In the case of the Fire Authority, assets exceeded liabilities by \$ 148,181 at June 30.

By far, the largest portion of the Authority's net assets is its investment in capital assets (land, buildings, machinery, and equipment), less any outstanding debt related to acquiring the asset. These capital assets are used to provide services to citizens and are not available for future spending. Although the Authority's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. At June 30, 2006, the Authority reported \$ 136,015 in net assets invested in capital assets net of related debt.

Summary of Net Assets

In a condensed format, the following is a comparative summary of the Authority's net assets at June 30, 2006 and June 30, 2005:

Government-wide Financial Analysis

Governmental Activities

Operating grants and contributions were \$13,987, or approximately 30 percent of total governmental revenues.

Charges for services, including operating assessments, were \$ 18,000, or approximately 38% of governmental revenues.

The Fire Authority expended \$ 56,636 on governmental programs and services. Except for depreciation, the largest expense category was incurred for fire protection, which totaled \$ 18,425, or approximately 32.5 percent of total expenditures. Interest on long-term debt comprised \$ 8,251, or approximately 14.5 percent of total expenditures.

Financial Analysis of the Governmental Funds

As previously noted, the Fire Authority uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds

The focus of the Fire Authority's governmental funds is to provide information on near-term inflows, outflows, and balances of spend-able resources. This information is useful in assessing the Authority's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The Authority's governmental funds reported combined ending fund balances of \$12,166 of which \$11,000 is unreserved and is available for spending at the government's discretion.

The Authority's primary governmental fund is its general fund. There are no reservations in the general fund's fund balance.

On the budgetary basis of accounting, the Authority ended the fiscal year with revenues very close to both the original and final budgetary projections. Total expenditures were slightly lower than the final budget, but higher than the original projection. At fiscal year end, the fund balance was higher than the final amended budget projections, but lower than originally budgeted.

Governmental Funds (Continued)

Revenues - Budget vs Actual for the Fiscal Year Ended June 30, 2006:

| | Revenues Original Budget | Revenues Final Budget | Revenues Final Actual | Revenues Variance Actual vs Original Budget | Revenues Variance Actual vs Final Budget |
|--------------|--------------------------------|-----------------------------|-----------------------------|---|--|
| General Fund | \$ 33903 | \$ 31512 | \$ 32797 | \$ (1106) | \$ 1285 |

|--------------|------------------------------------|---------------------------------|---------------------------------|---|--|
| General Fund | \$ 33903 | \$ 35330 | \$ 35263 | \$ (1360) | \$ 67 |

General fund financial and budgetary highlights of the fiscal year include:

- * Local unit assessments and intergovernmental grants were exactly as projected. Interest earnings were just \$ 2 more than estimated in the final budget.
- * Expenditures in total for the general fund were \$ 35,263, just \$ 67 less than the final amended budget of \$ 35,330.

Capital Assets and Debt Administration

Capital Assets

The Authority's investment in capital assets, net of accumulated depreciation, for its governmental activities as of June 30, 2006 is \$ 299,392. The investment in capital assets includes land, buildings, fire truck, and equipment, protective gear, communications equipment, and other safety equipment.

During the fiscal year ended June 30, 2006, the Authority purchased 12-unit mobile air cylinders at a total cost of \$13,595. This was funded with a federal grant in the amount of \$12,150, with a local match of \$1,445.

Long-term debt

As of June 30, the Fire Authority had total debt outstanding of \$163,377. Of this amount, \$13,987 is due and payable within the next 12 months.

The following areas highlight the Fire Authority's priorities and accomplishments:

Providing the Fire Authority with the best state-of-the-art equipment. To this end, the Fire Authority has been very active with grant applications, since municipal funding is limited. They have been successful in the past several years.

Future plans include:

Continuation with the improvement of the Fire Authority's equipment and performance programs.

Requests for Information

This financial report is designed to provide a general overview of the Fire Authority's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

NOTES TO THE FINANCIAL STATEMENTS

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting methods and procedures adopted by the **Caspian-Gaastra Fire Authority**, Caspian, Michigan, conform to generally accepted accounting principles as applicable to governmental entities. The following is a summary of the more significant policies:

THE FINANCIAL REPORTING ENTITY

The Caspian-Gaastra Fire Authority was formed to organize, equip, and manage a fire department to provide fire protection for the land areas within the boundaries of the cities of Caspian and Gaastra. The Caspian-Gaastra Fire Authority was formed on February 01, 2001, and, as provided by statute, operates under a Governing Board which consists of 2 members appointed by the governing body of each respective municipality, plus one additional member selected by the Board who shall be a resident of a participating municipality.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

THE FINANCIAL REPORTING ENTITY (Continued)

The criteria established by GASB Statement 14, The Financial Reporting Entity, is used to determine the primary government unit and the component units to be included in the financial reporting entity.

This Statement describes the characteristics of a primary government unit, which includes a separately elected governing board, legally separate government possessing corporate power and separate legal standing, and fiscal independence. GASB 14 also provides criteria for defining the component unit, based on the fundamental concept of accountability.

BLENDED COMPONENT UNITS

A blended component unit is a legally separate entity from the local unit, but is so intertwined with the local unit that it is, in substance, the same as the local governmental unit.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2006

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BLENDED COMPONENT UNITS (Continued)

A basic strategy of GASB 14 is to present financial information for component units separately from the financial information for the primary government.

This is achieved through the discrete presentation method. However, in the case of blended component units, GASB believes that it would be more appropriate to use the blending method to incorporate the financial information of a component unit into the reporting entity's financial statements.

When the blending method is used, transactions and balances of a component unit are merged with similar transactions and balances of the primary government so that there is no way to identify which balances relate to the component unit and which relate to the primary government.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BLENDED COMPONENT UNITS (Continued)

On the basis described above, there are no blended component units whose financial statements are included in the financial statements of the **Caspian-Gaastra Fire Authority.** However, the financial statements of the *Caspian-Gaastra Volunteer Fire Department* should be reported as a discretely presented component unit. This financial information has not been included in the financial statements of the **Caspian-Gaastra Fire Authority**.

JOINT VENTURES

A joint venture is a legal entity or other organization that results from a contractual agreement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or an ongoing financial responsibility.

An ongoing financial responsibility is determined as a participating government's obligation in some manner for debts or the joint venture's existence depends on continued funding by the participating government.

JOINT VENTURES (Continued)

There are no joint ventures to be reported.

JOINTLY GOVERNED ORGANIZATIONS

A jointly governed organization is a multi-governmental arrangement that is governed by representatives from each of the governments that create the organization, but that is not a joint venture because the participants do not retain an ongoing financial interest or responsibility.

There are no jointly governed organizations to be reported.

RELATED ORGANIZATIONS

A related organization is an organization for which a primary government is not financially accountable (because it does not impose will or have a financial benefit or burden relations) even though the primary government appoints a voting majority of the organization's governing board.

BASIS OF PRESENTATION

The Fire Authority follows GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. GASB Statement No. 34 adds the following components to the financial statements:

Management's Discussion and Analysis

A narrative introduction and analytical overview of the government's financial activities. This analysis is similar to the analysis the private sector provides in their annual reports.

Government-wide financial statements

These include financial statements prepared using full accrual accounting for all of the government's activities.

Government-wide financial statements (Continued)

This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Annual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter. The government-wide statements include the Statement of Net Assets and the Statement of Program Activities.

Statement of Net Assets

The Statement of Net Assets displays the financial position of the primary government (governmental activities).

BASIS OF PRESENTATION (Continued)

Statement of Net Assets (Continued)

Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Assets and report depreciation expenses - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government are broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Statement of Program Activities

The statement of program activities reports expenses and revenues in a format that focuses on the cost of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Budgetary comparison schedules

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The Fire Authority and many other governments revise their original budgets over the course of the year for a variety of reasons.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The basic financial statements include both government-wide (based on the Fire Authority as a whole) and fund financial statements. The reporting model focus is on both the Fire Authority as a whole and the fund financial statements, including the major individual funds of the governmental categories.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as governmental. In the government-wide Statement of Net Assets, the governmental column (a) is presented, and (b) is reflected, on a full accrual, economic resource basis, which incorporates long-term assets and as long-term debt and obligations. receivables as well wide and fund financial statement Both governmentpresentations provide valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the financial information. The Fire Authority generally uses restricted assets first for expenses incurred for which both restricted and unrestricted assets are available.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

The Fire Authority may defer the use of restricted assets based on a review of the specific transaction.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety) that is otherwise being supported by general government revenues (interest and investment earnings). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions.

The program revenues must be directly associated with the function (public safety).

Program revenues include 1) charges to customers for fire protection and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported as general revenues. The Fire Authority does not allocate indirect expenses. When applicable, the operating grants and contributions column includes operating-specific and discretionary (either operating or capital) grants while the capital grants and contributions column reflects capital-specific grants.

In the fund financial statements, financial transactions and accounts of the Fire Authority are organized on the basis of funds.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The fund statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented which briefly explains the adjustments necessary to reconcile the fund financial statements to the governmental activities column of the government-wide financial statements.

The following is a brief description of the specific funds used by the Fire Authority:

GOVERNMENTAL FUNDS

These funds are those through which most governmental functions typically are financed.

GOVERNMENTAL FUNDS (Continued)

The acquisition, use, and balances of the Authority's expendable financial resources and the related current liabilities are accounted for through the Governmental Funds. These funds are as follows:

General Fund

This fund is used for all financial transactions not accounted for in another fund, including the general operating expenditures of the local unit. Revenues are derived primarily from assessments from participating municipalities.

This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Both the General Fund and the Debt Service Fund are major funds for government-wide reporting purposes.

MEASUREMENT FOCUS

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus.

Operating statements of the governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The government-wide Statement of Net Assets and Statement of Activities are accounted for on a flow of economic resources measurement focus.

With this measurement focus, all assets and all liabilities associated with the operation of these activities are included on the Statement of Net Assets.

MEASUREMENT FOCUS (Continued)

The Statement of Net Assets and Statement of Activities are presented on the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

The fund financial statements of the General and Debt Service funds are maintained and reported on the modified accrual basis of accounting using the current financial resources measurement focus. Under this method of accounting, revenues are recognized in the period in which they become measurable and available. Interest income is recorded as earned. Federal and State reimbursement-type grants revenue is considered to be measurable and available as revenue when related eligible expenditures are incurred.

The local government unit applies all GASB pronouncements as well as the FASB pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

ENCUMBRANCES

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriations, is employed for accountability purposes only.

It is the Fire Authority's policy to honor all unfilled contracts/orders at year-end, but the authority to complete these transactions is provided by the new year's budget appropriations, as unexpended appropriations of the current year lapse at year-end.

CASH AND CASH EQUIVALENTS

The Fire Authority pools cash resources of its various funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements.

The Fire Authority classifies cash on hand, cash on deposit (including certificates of deposit), and highly liquid investments with an original maturity of ninety days or less when purchased as cash in its financial statements.

CAPITAL ASSETS

Capital outlays are recorded as expenditures of the General Fund and as assets in the governmental-wide statements to the extent the Fire Authority's threshold of \$500 is met. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful lives:

NOTE B – INTER-FUND ACTIVITIES

INTER-FUND RECEIVABLES AND PAYABLES

Inter-fund receivables and payables do not represent interfund borrowings; instead, they represent actual amounts which are pending between funds at year-end due to the timing of cash flows. Generally, these amounts clear shortly after year-end when resources become available.

On June 30, 2006, the Fire Authority had no inter-fund receivables/payable.

OPERATING TRANSFERS

Inter-fund transfers are the result of legally authorized transfers form a fund receiving revenue to the fund through which the resources are to be expended.

During the fiscal year ended June 30, 2006, there were no inter-fund transfers.

NOTE J - RELATED PARTY TRANSACTIONS

Related parties exist when there is a relationship that offers the potential for transactions at less than arm's length, favorable treatment, or the ability to influence the outcome of events differently from that which might result in the absence of that relationship.

NOTE J – RELATED PARTY TRANSACTIONS (CONTINUED)

Financial statements must include disclosure of material related party transactions, other than compensation arrangements, expense allowances and similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of combined financial statements is not required in those statements.

On this basis, there were no related party transactions reported in the financial statements.

NOTE K – SUBSEQUENT EVENTS

Subsequent events have a material effect on the financial statements which requires adjustment or disclosure.

NOTE K - SUBSEQUENT EVENTS (CONTINUED)

They relate to events that provide additional evidence with respect to conditions that existed at the date of the balance sheet and events that provide evidence with respect to conditions that did not exist at the date of the balance sheet but arose subsequent to that date.

At fiscal year ended June 30, 2006, there were no subsequent events that would have a significant effect on the Fire Authority's operations.

NOTE L - COMMITMENTS AND CONTINGENCIES

There are no commitments or contingencies to be reported for the **Caspian-Gaastra Fire Authority** for the fiscal year ended June 30, 2006.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Governing Board **Caspian-Gaastra Fire Authority**Caspian, Michigan 49915

We have audited the financial statements of the governmental activities and each major fund of the Caspian-Gaastra Fire Authority, as of and for the year ended June 30, 2006, which collectively comprise the Caspian-Gaastra Fire Authority's basic financial statements, and have issued our report thereon dated December 07, 2006. The report on the Caspian-Gaastra Fire Authority was qualified because the financial data for the Caspian-Gaastra Volunteer Fire Department (component unit) was omitted from the financial statement reporting, as required by generally accepted accounting principles in the United States of America. Except as discussed in the preceding sentence, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the **Caspian-Gaastra Fire Authority**'s internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no such matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the **Caspian-Gaastra Fire Authority**'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts.

Compliance and Other Matters (Continued)

However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management, the Board, and federal awarding agencies and pass-through entities, and it is not intended to be, and should not be, used by anyone other than these specified parties.
